gauravghuge737@gmail.com ◇ [LinkedIn](#) ◇ [GitHub](#) ◇ [Leetcode](#) ◇ [PortFolio](#)

OBJECTIVE

A fast learner and innovative developer with a strong ability to adapt to new technologies and solve real-world problems. Experienced in building user-friendly applications and enhancing application performance. Skilled at tackling challenges with scalable, efficient, and impactful solutions.

SKILLS

- **Programming Languages:** Java, C++, JavaScript, TypeScript, HTML, CSS
- **Frameworks and Libraries:** React.js, Next.js, Node.js, Express.js, REST APIs
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Tools and Fundamentals :** Git, Linux Docker, AWS, Data Structures, Algorithms

EDUCATION

Bachelor of Computer Science — Dr Babasaheb ambedkar marathwada University	Expected 2025
Higher Secondary Education — Maharashtra State Board — Percentage - 83.17	2019 - 2021
Secondary Education — Maharashtra State Board — Percentage - 79.00	2018 - 2019

EXPERIENCE

Full Stack Developer Intern Arohi Softwares	May 2024 - september 2024 <i>Ahemednagar Maharashtra, India</i>
--	--

- Worked on Node.js to handle payment acceptance and verification, integrating third-party APIs like Cloudinary, Razorpay, and AWS for storage.
- Developed an [Employee Management System](#) using the MERN stack, creating a dynamic interface.
- Collaborated on a [Learning Management System project](#), contributing to design and deployment.

PROJECTS

Laptop Checker App	View Project github
--------------------	-------------------------------------

- Designed an interface in **Next.js** to evaluate laptop performance, providing users with practical insights for informed purchasing decisions.

Company Management System	View Project
---------------------------	------------------------------

- Built a Jira-like system for centralized management of **teams** , **clients** and **tasks**, utilizing **React** for the front-end and **Node.js** for API integration to manage high data volumes.

Student Career Guide and Preparation	View Project
--------------------------------------	------------------------------

- I am teaching some students and providing them with **career guidance** in **coding**. I am creating a website for them to learn and develop coding skills.
- Developed a **MERN-based** career guidance site with a responsive UI using React and secure backend APIs in Node.js for data-driven user interactions.

ACTIVITIES AND INTEREST

- Write blogs on [Hashnode](#) that engage with posts by random viewers on the platform.
- monitor activities in investment and the economy.
- Show interest in social services and actively support helping hands within the community.
